\*\*\* Due to the responses received, beginning in 3rd Period we began asking a follow-up question: Why won't you change how you use the internet? In answer, the students gave the following answers:

- > I only use the internet for research.
- > I never post anything that's true on the internet.
- > I only chat or IM with friends from school.
- > I only play games on the internet.
- > My internet connection at home is too slow to do anything.
- > I only e-mail friends from school and my parents.
- > I don't have internet access.
- > My parents keep strict oversight on my internet activities.

\*\*\*\* In 2009 the word "sexually" was added to this question to clarify what was being asked.
